**Product designation:**

EKASTU-Eye Wash Unit Aqua Push

The EKASTU-Eye Wash Unit Aqua Push is manufactured according to factory specifications and complies with DIN EN 15154-2 and the BGI/GUV-I 850-0 "Safe working in laboratories - principles and guidelines" issued by the German Social Accident Insurance (DGUV).

Eye showers with a water connection are mandatory first aid equipment for workplaces where hazardous substances are handled. The eye shower is used for targeted rinsing of the eyes and for rinsing the face

## DESCRIPTION

- The EKASTU-Eye Wash Unit Aqua Push is ideal for quick and effective irrigation as part of first aid treatment after an eye accident
- Specially, ergonomically shaped shower head, made of high-quality medical material, which gently surrounds the eye to be rinsed and prevents the eyelid closure reflex
- Aqua Push delivers a wide and even jet of water (approx. 7.2 l/min)
- Easy-to-use handle made of robust plastic, with the option of locking, for even more comfortable rinsing of the contaminated eye
- Dust cover protects the eye shower from contamination
- Easy commissioning thanks to simple connection to the local cold/drinking water pipe
- Includes easy-to-clean, flexible shower hose with kink protection and standardized ½ inch (ISO 228) connection
- Ideal for wall mounting, wall bracket included in the scope of delivery
- Suited ideally for a wide range of areas, such as industry, laboratories, universities and schools
- Self-adhesive sign for standard-compliant labeling of the eye wash unit

## MAIN FEATURES

## MATERIALS

The materials used are particularly kind to the skin and therefore have no negative effect on human health

- |                  |                                       |
|------------------|---------------------------------------|
| • Handle:        | High-density polyethylene (HDPE)      |
| • Shower head:   | High-density polyethylene (HDPE)      |
| • Dust cover:    | Low-density polyethylene (LDPE)       |
